Los Angeles, (b). The following is the originator's description, all of which we fully endorse: "Los Angeles is, by all odds, one of the finest roses ever introduced. The growth is very vigorous, and produces a continuous succession of long stemmed flowers of a luminous, flame-pink, toned with coral and shaded with translucent gold at the base of petals. In richness of fragrance it equals in intensity the finest Marechal Neil. The buds are long and pointed, and expand into a flower of mammoth proportion, while the beauty of form and ever increasing wealth of color is maintained from the incipient bud until the last petal drops ....."	1700@75c	280 @50c
